PROFILE

I am a motivated and detail-oriented Information Technology 2nd year student with hands-on experience in IT support, web development, and cybersecurity. Skilled in troubleshooting hardware/software issues, building interactive web applications with React, and applying best practices in security and performance. Passionate about continuous learning and developing real-world tech solutions, with a solid foundation in programming, team collaboration, and project management.

WORK EXPERIENCE

- **Karomtec SRL - Romania**   2019 - 2021
  IT Support - Part-Time

  - Installed and configured Windows systems, ensured optimal PC performance, resolved hardware/software and internet connectivity issues.
  - Set up and managed remote access solutions using tools like AnyDesk and TeamViewer for efficient off-site support.

EXTRACURRICULAR ACTIVITIES

- **Course "CompTIA Security (SY0-701)"**
  By: **Jason Dion** - Udemy

  - Fundamental Security Concepts
  - Navigating Threats, Vulnerabilities, & Remedies
  - Decoding Security Architecture
  - Mastering Security Operations
  - Guiding Security Program Management & Oversight

- **Course "Ethical Hacking"**
  By: Zaid Sabih - Udemy

  - Network Hacking
  - Gaining Access
  - Post Exploitation
  - Website / Web Application Hacking

- **Course "React - The Complete Guide"**
  By: Maximilian Schwarzmüller - Udemy

  - Built interactive UIs with React components, props, and state
  - Used Hooks, Fragments, Portals, and React Router for advanced features
  - Managed global state with Redux Toolkit and handled HTTP requests
  - Styled apps, added authentication, and deployed React projects with TypeScript
